

**It's That Time of the Year to Either Renew or Join!**

We are running our yearly Goose Bay Reclamation Corp. (GBRC) membership drive to support ongoing efforts to restore and maintain Goose Bay. Our Great Lakes Restoration Initiative and New York State Legislative grants, which were seeded with GBRC funds, supported milfoil control in 380 acres of the Bay. GBRC has also supported Clarkson University projects to understand the sources of nutrients which accelerate weed and algae growth in the Bay and to study the propagation of milfoil. Last year, GBRC sponsored a weed survey which found milfoil in about 150 acres of the Bay. GBRC is targeting a major project to eliminate the milfoil in 2027. GBRC continues to explore new grant opportunities while building bridges to local and state officials and agencies. Monies raised from this year's membership drive plus additional fundraising activities will be used to support ongoing milfoil and nutrient control projects.

**Please consider becoming a member or renewing your membership by completing the form below. If you are renewing, please consider an increased contribution level.** You can join or renew by mail or online at our website, [goosebayreclamationcorp.org](http://goosebayreclamationcorp.org). By including your email address, you will help us save on future mailing costs. See our website to learn more.
